To Whom it may concern,

I am writing on behalf of Bolton's Youth Healthcare Transformation Board to ask for your help in spreading the word about an important survey on Sexual Health. We are a group of young people from Bolton, and recognise that, as an education provider, you will understand the importance of sharing knowledge, and we are asking for your support to ensure people are equipt to seek sexual health advice, support or make lifechanging decisions.

Our mission is to understand what the Bolton community already know, and where education is missing when it comes to seeking information about their sexual health, so we can share this information with the NHS and related sexual health services, such as The Parallel.

We have worked hard, with the support of experts in public and sexual health, to create a well-rounded Sexual Health Survey; a quick way to assess what more needs to be done to ensure our community have enough sexual health knowledge and easy access to associated services. We are asking that both staff and students are encouraged to take this survey, so our data can capture the experiences of as many groups as possible.

Of course, all data gathered will be kept strictly anonymous; we can assure you that no personally identifying information will be collected. As such, we want your respondents to feel confident about completing the survey in the knowledge that their experiences cannot be linked to them as an individual.

The survey itself asks questions ranging from straightforward demographic details to items which allow respondents to share their own experiences of their sexual health. The survey takes approximately 5-10 minutes to complete. Those that do participate will have the opportunity to enter a prize draw for a £50 Amazon voucher, should they wish to.

We hope that you appreciate the value that sharing this survey will have on empowering people with confidence when it comes to their sexual health. We would be thrilled if you could share our important survey with your staff and students.

Should you have any questions regarding the survey, please feel free to contact Bolton Youth Healthcare Transformation's staff lead, Lucy Dunkerley at [lucy@youthleads.uk](mailto:lucy@youthleads.uk).

Thank you for your time,  
Alisha Issa
